\*NOT HEATED

INQUIRE ABOUT PARTY AND MEETING ARRANGE-  
MENTS - ALSO PRIME BEEF STEAK BOXES.

John Montagu (1718-1792) was the fourth Earl of Sandwich. And the originator of sandwiches.

It was late one evening during 1762, while at the Beefsteak Club in London. Beefsteak was brought to the gaming table for his Lordship's evening meal because he couldn't bear leaving the game. And being afraid of drippings on his playing cards, he asked for two pieces of bread. Put the beefsteak between the bread. Then ate it.

At that moment the sandwich - and the idea of convenience food - was originated.

From that night on, the Earl of Sandwich would customarily have his meals at the gaming table - sandwich style. And this habit quickly established a tradition, plus a namesake for John Montagu.

Restaurants have come a long way since that fateful night in 1762. So have sandwiches and food service. And to think, it all started as a matter of convenience.

We salute the originator of sandwiches and convenience foods by naming our shop in honor of John Montagu, the fourth Earl of Sandwich. But not without adding something ourselves. In this case an "e" to the name and a lot more variety to the original idea.

So eat and drink well. Enjoy yourself. And carry on the tradition.
